

Name: Varadraj Satish Patil

Class: CSSE-B

Roll no: 65

Prn: 12412485

Aim

To classify the variables in the given dataset as Numerical (Ratio/Interval) or Categorical (Nominal/Ordinal).

Classification Table

Variable	Type	Sub-Type	Reason
Student_ID	Categorical	Nominal	Identifier/label; numbers have no mathematical meaning
Age	Numerical	Ratio	True zero exists and ratios are meaningful
Gender	Categorical	Nominal	Categories without order
City	Categorical	Nominal	Location labels
Attendance_%	Numerical	Ratio	Percentage with meaningful zero
Study_Hours	Numerical	Ratio	Measurable time with true zero
Sleep_Hours	Numerical	Ratio	Hours with true zero
Internet_Hours	Numerical	Ratio	Time duration
Previous_GPA	Numerical	Interval	Differences meaningful but no

			true zero
Current_GPA	Numerical	Interval	Same GPA scale reasoning
Assignment_Score	Numerical	Ratio	Score with meaningful zero
Exam_Score	Numerical	Ratio	Score with meaningful zero
Participation_Score	Numerical	Ratio	Score scale
Family_Income	Numerical	Ratio	Monetary value with true zero
Scholarship	Categorical	Nominal	Yes/No category
Hostel	Categorical	Nominal	Yes/No category
Exercise_Hours	Numerical	Ratio	Time duration
Stress_Level	Categorical	Ordinal	Ordered categories (Low < Medium < High)
Course_Type	Categorical	Nominal	Field of study categories
Placement_Interest	Categorical	Nominal	Yes/No category
